

About Interview

We Japan Tsukuba International Language College (TLC) are doing interviews with overseas applicants in the following way. We will decide the way to interview after screening your application documents. Please follow our instructions.

1 ◇ Interview directly in your country

Local staff will inform you the details of interview, such as time and place. Please follow the instructions.

2 ◇ Web Interview

(1) Applicants choose the interview method from the following.

1. Skype
2. LINE
3. Facebook Messenger
4. Google hangout

Please choose one from the above and send us a message by it as a connection test before the interview. Don't forget your name and nationality in your message.

We will reply to you. If you get no reply within one week, the connection test may have failed. Please send your message again or try another method.

Refer (3) information to connect.

* When all of 1 to 4 is impossible, please contact by e-mail. → info@tlc.japan.ac.jp

(2) Adjust the interview schedule

Both of us confirm the message and adjust the interview schedule.

Adjust the schedule via e-mail, the above 1 to 4 methods, or introducer. In principle, interview will be set between Monday to Friday, 1:00 pm to 5:00 pm of Japan time (JST). Please tell us your desirable date and time with considering the time difference between your country and Japan. If it is impossible to do web interview on the above Japan time (JST) due to the time difference, please let us know. We can reschedule for another day.

* Please find a person who understands Japanese before the interview (Japanese teacher, introducer, interpreter, etc.) and ask for attending the interview test with you.

(3) Information to connect.
